

RACINE VISITORS LOSE AT GOLF

Sinnissippi Team Scores
33 to the Opposing
Team's 28,

EXCITING GAMES

Contest Was Close and Excit-
ing, and Close Scores
Were Made.

WAS AN IDEAL DAY

Janesville golfers won the tourna-
ment with Racine by a score of 33 to
28. It was a close and exciting
match and several hundred, enthu-
siastic golfers spent the day at the
links watching and encouraging the
players by their presence.
A more pleasant day for the Ra-
cine Janesville golf match could not
have been selected. The weather
was perfect for golf, not too hot or
cold and without a sign of rain to
mar the pleasure. The grounds were
in as good shape as they have been at
any time this year which added much
to the pleasures of the match. The
members of the Racine team accom-
panied by a number of ladies arrived
in the city last evening at 6:40 and
were taken to the grand hotel for
supper and lodging.

Dance At Club
After supper the visitors were
taken to the club house, where an in-
formal reception was held for them
by the club members. During the eve-
ning the mandolin orchestra rendered
a number of instrumental selections
and Smith's orchestra furnished the
inspiration for the dance. Light re-
freshments were also served and ad-
ded to the pleasures of the evening.

Who Are Here
The members of the Racine party
were W. S. Fish and wife, F. K. Bull
and wife, Warren Fish and wife,
Misses Mabelle and Olive Mitchell, S.
Bull, H. S. Blake, C. L. Pugh, J. L.
Mitchell, John Hupp, E. J. Buchanan,
Dr. L. E. Hall, C. A. Gilbert, F. C.
Staples, J. T. Blake, C. E. Barry and
Wm. Lorimer, the club professional.

Visit Course
The visitors were taken to the
grounds early this morning and given
a chance to go over the course
before the match, which was called
at 10 o'clock in order that the match
might be finished by luncheon time
and that some of the local players
could attend the convention.

Line Up
The line up of the teams was as
follows:

Racine—Dr. Hall, S. Bull, H. S.
Blake, J. T. Blake, E. J. Buchanan,
J. H. Hupp, S. W. Redman, W. E.
Fish, C. L. Pugh, F. K. Bull, F. L.
Mitchell, R. T. Robinson, W. S. Fish,
F. C. Staples, A. A. Gullbert.
Janesville—A. Schaller, O. Suther-
land, C. A. Schaller, H. G. Carter, C.
MacLean, C. Dunn, H. H. McKin-
ney, F. E. Fife, F. J. Baker, L.
Brownell, J. P. Baker, S. D. Tallman,
H. S. McGiffin, George Baumann,
Charles Schaller.

On Grounds Early
The Racine players were early on
the grounds going over the course
getting familiar with the distances
and the play developed at this time
showed that the visitors would give
the home team a close game or a
beating.

Players Start
The first pair S. W. Redman and
H. H. McKinney started promptly at
10 o'clock and were followed by the
other players in regular order. Then
the surprises began. The Racine
players were all putting up a game
far beyond anything developed in
their play over their own course and
rounds in 44, 45 and 46 were a com-
mon thing for them, and up to one
o'clock when six pairs had finished
only one Janesville player came in
up. This was H. S. McGiffin, captain
of the team, who finished three up
on W. S. Fish.

Mr. Bull's Score
S. Bull, who played O. Sutherland,
turned in a card with a 39 and a 42
score or a total of 81 which is the
best card that has been turned in so
far this season. The Racine team
played in perfect form and showed
where the instruction received from
their professional W. Lorimer, stood
them in hand.

Mrs. Robinson's Score
Mrs. R. T. Robinson of Racine made
the round of the course in 48, which
is a score that many of the gentle-
men players on the home team would
be proud to make. All of her shots
and the distance she gets with her
driver and brassy is remarkable.

Taken as a whole the Racine team
is far in advance of any team that
has visited Janesville during the last
two seasons. The final score was as
follows:

RACINE.	JANESVILLE.
Dr. Hall.....	0 A. Schaller.....
S. Bull.....	0 O. Sutherland.....

Dinner Served
At the completion of the match din-
ner was served to the visitors and
members of the home team by the
ladies of the club, the dinner being

under the supervision of Mrs. H. G.
Carter. After lunch the balance of
the afternoon until train time was
spent in having a social good time
and in playing friendly matches.

Leave This Afternoon
The visitors left on the 5:10 train
for home and were loud in their
praises of the way they were enter-
tained by the Sinnissippi club during
their stay in Janesville and hoped
they would have the pleasure of fur-
ther contests next season.

FRIENDS ATTEMPT TO AVOID FIGHT

Hope to Settle Trouble Between Sena-
tor Bailey and Solicitor Pen-
field by Arbitration.

(Special By Scripps-McLae)

Washington, D. C., July 10.—Friends
of Senator Bailey of Texas and Soli-
citor Penfield of the State depart-
ment are endeavoring to settle the
differences between the two men by
arbitration.

To Avoid A Fight
It is the object of the men interest-
ed in the affair to keep two men from
a personal encounter and it is
thought that this can be accomplish-
ed. It has been suggested that each
man appoint a third, the three to
determine upon the course of action
that will settle the difficulty amicably.

WILL NOT ACCEPT RAILWAY TERMS

Chicago Freight Men De-
cide to Continue the
Fight to End.

TEAMSTERS STRIKE

Several Hundred Drivers Re-
fuse to Work, and Will
Now Go Out.

ARE CRITICAL TIMES

(Special By Scripps-McLae)

Chicago, July 10.—Contrary to the
expectations of the general public
the freight handlers as an organiza-
tion this morning refused to accept
the terms offered by the railroads and
voted to continue the strike.

Will Abide By Decision
Several hundred of the strikers de-
cided to return to work and reported
to the railway shops for work. To
offset this defection several hundred
teamsters who had driven loads to the
depots turned about and in answer
to the appeals of the strikers drove
to their respective barns.

Causes Consternation
This move created consternation
that was not lessened at all by the
statement of the fact by officers of
the drivers' union that they could not
much longer keep their men from
joining in a sympathetic strike.

Business Paralyzed
The move of the teamsters has par-
alyzed business and caused much con-
sternation among the business
houses who thought the strike would
be settled.

COUNTY TICKET IS NAMED

Appleby, Starr, Goldin,
Rice and Weirick,
Are Nominated.

GETTLE FIGHTING

The Half Breed Leader Calls
on the Delegates to
Break the Ring.

JACKSON A WINNER

Politics were at a fever heat in
Janesville today. On every corner
knots of politicians congregated talk-
ing over the political situation. It
developed early in the day that there
was a combination on foot between
the Beloit delegation and the half
breed delegates in case Appleby was
not nominated for sheriff that the
rest of the ticket would be sacrificed
and the LaFollette candidates would
get the support of their delegates in
addition to the entire Beloit delega-
tion. Up to the time of calling the
convention to order things looked
stormy. The Stalwarts made all
sorts of propositions to straighten out
the tangle.

Sacrifice Cochrane
The only proposition that seemed
to meet with their approval was that
Appleby be given the support of the
entire Stalwart delegation and Cochrane
be sacrificed to save the balance
of the Stalwart candidates. The dele-
gates from the First assembly dis-
trict were on hand to make a fight
on the ruling of the county commit-
tee on the delegates from the town of
Rock and the town of Porter. They
occupied a section of the seats on
the east side of the court room and
J. L. Fisher and L. E. Gettle were
very busy giving them instructions
how they should act in case of a fight.

Senator Whitehead Present
Senator Whitehead was early on the
scene and stood in the rear of the
room taking in the proceedings and
putting in a good word for the sup-
port of the stalwart delegates.

It developed later just before the
convention opened that all the LaFol-
lette delegates were determined to
make a fight on the ruling of the
county committee and it was stated
that it would be a fight to a finish.

Candidates Busy
The candidates for the several of-
fices were kept busy distributing
tickets among the delegates. The buzz
of numerous voices talking over the
situation resembled the hum of a
swarm of bees and was only a fore-
runner of what was to follow when
the convention was called to order.

The convention was called to order
at 2:25 by T. S. Nolan, chairman
of the county committee and who read
the call under which the convention
was organized. T. S. Nolan an-
nounced that W. W. Cochrane, who
has the support of Janesville and the
surrounding country for the office of
sheriff, withdrew in favor of G. M.
Appleby of Beloit.

D. H. Pollock nominated Simon
Smith of Beloit as chairman, who ac-
cepted in a short speech. L. E. Get-
tle nominated F. P. Sanley, secretary.

Nolan Is Re-Elected
J. C. Road moved to proceed to the
election of Chairman of the County
Committee and nominated T. S. No-
lan. L. E. Gettle moved to amend
the motion by substituting the name
of Victor P. Richardson. The amend-
ment was lost and the original mo-
tion carried.

R. H. Sharp moved that a commit-
tee on credentials be appointed. This
was overruled by the chairman and
the report of the county committee
was read by the clerk.

Fight Is On
L. E. Gettle moved that the adop-
tion of the report with the exception
that the delegates from Rock be
changed to the original list and the
resolution be not adopted. The mo-
tion carried.

L. E. Gettle moved that the resolu-
tions be further amended that the La-
Follette delegates in Porter be al-
lowed to cast the full vote.

Cham Ingersoll spoke against the
motion that in fact no delegate is
entitled to a vote as each received
35 votes.

Gettle In Evidence
L. E. Gettle made a long speech
in support of his motion. He said
that in Milwaukee this manner of
settling a tie is carried out. In the
Town of Porter as long as there was
a tie and the proposition was made
that it should be decided by lot it
should stand. The delegates had
stated that they would not take a
seat in the convention. The only
thing that has a controlling influence
is precedent. The only fair way is
to respect the wishes of the chair-
man, Alex. White, and the delegates
who lost.

C. Ingersoll said that he had not
heard anything to convince him that
two wrongs make a right. Each de-
legate who gets a seat in this con-
vention and so represents the whole
town of Porter.

Porter Vote Divided
The motion was lost and each dele-
gate will be given one half vote each.

L. E. Gettle moved that the dele-
gates present be empowered to cast
the full vote of the towns and that
the report of the committee on cre-
dentials, as amended, be adopted. The
motion carried.

J. C. Road moved that the former
action of the convention in electing

PLAN TO BUILD LABOR TEMPLE

Beloit Trades' Council Holds Mass
Meeting of All Union Labor-
ers in the City.

Beloit, Wis., July 10.—In the Wil-
son Opera house on Wednesday eve-
ning, a largely attended meeting was
held, made up of members of the var-
ious labor organizations of the city
which are affiliated under the general
trades council. A notice had been
circulated by the central labor or-
ganization strongly urging the at-
tendance of every union man and wo-
man in the city. Various questions
of importance to the union inter-
ests of the city were discussed.

Among the plans suggested was the
erection of a "labor temple" to be de-
dicated to the cause of organized la-
bor. It is believed that a few such
meetings as this will tend strongly
to emphasize the community of in-
terests of all union laborers whether
in the same organization or not.

TRADE INACTIVE IN LEAF TOBACCO

DULL SEASON IS NOW AT HAND

Interest Centers in the New Crop, for Which Dry, Hot Weather Is Needed.

Very little is being done at the present time in the tobacco line outside of looking after the new crop. In almost every instance the young plants are growing finely and the fields show that the plants have started with but little if any loss. The planting is now practically completed and the grower will soon turn his attention to the cultivation of the crop to keep down the rapid growth of grass and weeds, that must surely follow in the wake of so much rain.

Business in both old and new leaf can now be said to be ended and while an occasional sale takes place the amount of leaf involved is important neither as to quantity or quality.

The trade in 1900 leaf is particularly dull there being practically none of this variety left unsold. Most of the warehouses have closed down, not more than one or two being in operation in this city. In Ohio the Zimmer Spanish crop of 1901 is still being sought for, but the almost total depletion of the leaf renders the results meager. Said leaf is also in demand but remaining stocks are neither plentiful or of a quality to command high prices. The 1902 crop is well under way and is doing nicely. All they need is a little warm weather.

In New York the season for 1901 tobacco is a thing of the past, the few sales occasionally occurring being but remnants, and small ones, of the year's business. The new crop is the object which is engaging all attention and its progress so far cannot be said to be entirely satisfactory. The copious and continual rains and the low temperature have been a decided detriment to early planted seedlings, which have rooted all right but have not thrived as much as could be desired. Farmers are earnestly hoping for a spell of dry, warm weather, during which they can set out their later plants. There is no danger of their being dried out, for the soil has been so thoroughly rain soaked as to hold sufficient moisture for weeks to come. In the Connecticut Valley conditions still remain about the same as last week; no sales of any account, and a determination on the part of the leaf holders to retain their tobacco until the expected high prices in the fall offer sufficient inducement for them to part with it. Cool and rainy weather still prevails, and while these conditions prevent wilting and the loss of plants, they do not conduce to the sturdy growth, the plants inclining more to long, slender development. The shade grown leaf is doing better than the open air variety and shows much greater progress, the tent being a protection from the unusually cool nights. If the weather proves suitable the planting and replanting will be about concluded this week.

Leaf conditions in Chicago are unchanged. The market is seasonably quiet, but there is nothing to be dissatisfied with. Large transactions are few, but the small orders foot up a fair total. Sumatra is moving rather slowly, the brisk spurt noted in previous letters having subsided, leaving the local market in its usual quiet condition. Havana is moving steadily in a small way, with demand in excess of supply for Vuelta and the opposite the case with Remedios. Connecticut conditions are unchanged, with forced-sweated dull and old leaf in demand, but scarce.

The regular midsummer quietness has settled down on the leaf trade in Milwaukee and business is moving along slowly with collections rather dull. There is an occasional spurt order, but nothing regular. Manufacturers are busy, especially on clear Havana brands, the demand for which has developed quite rapidly. The retail trade is good and I hear no complaints as to poor business from any of the cigar and tobacco dealers.

Never before has the cigar product in New York City reached the enormous figure of over a thousand and one hundred millions, and it cannot be credited solely to the two large combinations whose headquarters are in this city, because the largest part of the output of these combinations is manufactured in country districts and not in this city. The leaf market ought therefore to profit in some shape from this enormous production, and if it did not get its full share in the current year so far, it is certain that a larger share is in store for the coming season, as the factories must have consumed their available stock of old leaf. Not till cigars can be made from some other material than leaf tobacco can there be a shadow of substance to the ruling pessimism that our leaf market is doomed to go to the Dickens. Domestic wrapper leaf is one article for which the demand is greater just now than the supply and binder leaf is the other. And though sales in all other types have been going on in but limited quantities the old stock appears nevertheless near exhaustion.

TO MARK HISTORIC SPOT.

Site of Jacques Vleau's Old Indian Trading Post Located in Mitchell Park.

The exact site of the old French village and trading post of Jacques Vleau, father of Peter Vleau, has been located in Mitchell park, Milwaukee, on a line with Seventeenth avenue, across South Pierce street, and a bronze tablet will be erected to mark the spot of the birthplace of Peter Vleau, the first native Milwaukeean, who now lives at Muskego. Mr. Vleau himself has given the information leading to the discovery of the site, and upon a recent visit made by his daughter-in-law, Mrs. P. P. Vleau of this city, related many incidents of the early days of the city and of

his grandfather, Onateau, once king of the Pottowatomies. He stated that his father built his trading post on the Mitchell park site, early in the spring of 1795 and traded here with the Indians until 1834, when the tribes left the village. Mr. Vleau was born in 1820, but is in the best of health and expects to attend the pioneers' jubilee in Milwaukee in September.

BURNING DRUGS' ASPHYXIA

Fireman Overcome by Fumes at \$225,000 Fire May Die.

Dallas, Tex., July 10.—Fire at the corner of Commerce and Murphy streets destroyed the wholesale drug houses of the Patton, Worsham company, the Texas Drug company, the J. W. Crow Drug company and H. W. Williams & Co. The wholesale paper house of Scarff & O'Connor was badly wrecked and considerable damage was done to the Santa Fe depot.

One fireman, Paul Melcher, was overcome by poisonous fumes from the burning drugs. He is in a serious condition. The loss will reach \$225,000, of which \$175,000 is covered by insurance.

WOULD QUASH THE INDICTMENT

F. C. Andrews' Attorneys Argue the Matter at Detroit.

Detroit, July 10.—Arguments on the motion made to quash the indictment against Frank C. Andrews, former vice president of the wrecked City Savings bank, under which his trial was to have begun, were concluded in the recorder's court.

Judge Murphy took the matter under advisement and said he would endeavor to render an opinion to-day. Nothing further has been learned in regard to the reasons which impelled Judge Murphy to discharge the jurors called for the July term.

The Salmon Trust.

All of the salmon canneries of British Columbia have been "morganned." In other words, there is a salmon trust. The capital, however, is small, only \$3,000,000. The idea is to save the by-products, which hitherto have been wasted. The canned product will be, as usual, a portion of fish chucked into a tin of grease. From the scales and bones will be manufactured guano and glue. The "by-product" is the salvation of many a business these days.

BELOIT COLLEGE BALL PLAYERS

Under Jack Hollister Are Winning Laurels in the East.

The Beloit college summer baseball team has recently won a fresh wreath of laurels for themselves, their coach and their Alma Mater by defeating the crack team of Granville, New York, by a score of seven to five.

"Jack" Goes East

When the last college game of the season was played Coach "Jack" Hollister prepared to make his annual summer pilgrimage to his early home in the east. In the past he had always taken one or two members of the team with him, but this year he went farther and took a large part of the nine. Among those who accompanied him were Ed and Rob Brown, Cronkhite, Partridge, Allen, Merrill, Morey and others.

Played Star Game

On the Fourth of July at Granville this practically all-western team was matched against the star team of the region and in a closely fought game administered defeat to the tune of seven to five. The play was even throughout and showed much spectacular work. While in no sense a pitcher's battle some clever twirling was done by Morey for Beloit, who struck out thirteen men, and by the opposing man, who was the best pitcher of Amherst college. A thousand spectators were present.

Terwilliger—Heiner.

Thursday John Heiner of this city and Miss Elsie Terwilliger of Clinton took advantage of the Illinois marriage law, to get away from the five days delay necessary in Wisconsin. They went to Rockford where they were married by the Rev. Otto Gouner. The happy couple are well known in this city and have many friends who will extend congratulations. The bride is a young lady who has the respect of the community in which she resided and is held in high esteem by all who knew her.

The groom is a young man who has been employed in this city for several years and has always had the respect of his employers. They returned from Rockford Wednesday and will take up their residence in this city.

Poland Is Free.

Topoka, Kas., July 10.—Gov. Stanley has refused to honor the requisition of Gov. Yates of Illinois for Charles F. Poland, a farmer living near Ottawa, who is wanted in Joy, Ill., on a charge of wife abandonment. Poland's friends convinced Gov. Stanley that it was Poland's wife who had deserted him.

WHO KNOWS WHERE MRS. LAMONDE IS?

MERCHANTS ARE ANXIOUS

Business Firms Who Gave Credit Are Now Seeking for Their Pay In Court.

If Josephine Lamonde were in Janesville at the present time she would probably feel that she was the most abused woman in the city. And the news of the abuses that are being heaped upon her in her absence will probably not cause her to exhibit any undue haste in returning.

When she left Janesville several weeks ago, no public demonstration was made in honor of her departure, but when the days went by and she returned not C. S. Putnam began to show evidences of interest in the money which she owed to him for furniture obtained of him to furnish her home. Then it was that a suit of attachment was begun against Madame Lamonde and the constable went to her residence on North River St. and seized a fine assortment of chairs, mirrors, beds, dressers, a davenport and other of the furnishings that go to make a home pleasant and desirable.

The notice of this suit had no sooner been published than other dealers awoke to the fact that the Lamonde name was entered on their books. Archie Reu & Co. entered a suit of attachment on her piano and furs, Postwick another on her carpets and Putnam a suit of garnishes for house rent. Now, worse than home without a mother is Josephine Lamonde's home without its fittings.

Even the team to whom she owed several dollars got in line and presented his bill at the back door of the house. He was given such a chilly reception that he was glad to escape with his life. He has not yet decided whether to get in line and issue a writ of attachment or not.

Washouts in the West.

Omaha, Neb., July 10.—An average of six inches of rain has fallen in eastern Nebraska and western Iowa within the past week and last night occurred the heaviest fall of the week, averaging from one and one-half to two inches. Railroad tracks all over eastern Nebraska and western Iowa were washed out, as the result of six inches of rain in a week. The damage to crops is great. Grain in shock is sprouting and that not cut is over-ripe.

Foolhardy Sailors.

New York, July 10.—The 38-foot launch Abiel Abbot Low, commanded by Capt. William C. Newman, sailed from Co'se Point, L. I., for Falmouth, England. Capt. Newman's only companion on the trip is his son Edward, a youth of 16. The launch is equipped with a ten-horse power kerosene oil engine and is expected to reach Falmouth in about twenty days.

Cattle Inspection Report.

Springfield, Ill., July 10.—The weekly report of the cattle inspected at the Union stockyards in Chicago under the supervision of the state live stock commissioners is as follows: Inspected in yards, 262; passed in yards, 203; held for post-mortem, 59; passed on post-mortem, 47; condemned and tanked, 12; cases of tuberculosis, 8; cancer, 1.

KING EDWARD GAINS STEADILY

Cheerful Bulletin Is Posted at Buckingham Palace.

London, July 10.—Following is the bulletin posted at Buckingham palace regarding King Edward's condition: "The king's progress is uninterrupted. His majesty sleeps well and is gaining strength. The wound is slowly healing."

King Edward's progress is reported as uninterruptedly favorable. His majesty reclines on a movable couch most of the day. Some of his physicians are still in constant attendance on him.

It was announced that it was his majesty's present intention to be taken on board the royal yacht early next week.

MATERIAL FOR TOWER IS HERE

May Make the Crossing a Telegraph Station, to Facilitate Traffic.

Last evening a car load of material was unloaded at the McKee boulevard crossing of the C. M. & St. P. R. R. tracks for the signal tower which is nearing completion. The material unloaded consisted of rods and other machinery for the interlocking system, which is to be installed there.

No definite statement has been made in regard to the stationing of an operator at that place in addition to the flagman. A saving of from fifteen to twenty-five minutes in the time of a freight train would often be effected by the establishment of a telegraph station in that place. As it is, there are often five or six stock trains in an evening which reach this city close together. It is now necessary to wait until the first train reaches the next telegraph station, Avalon, ten miles away, before the second is sent out. With an operator at the new signal tower it would be possible to allow the second train to leave the yards as soon as the message was received that the first had passed the McKee boulevard crossing tower.

ATTRACTIVE OPPORTUNITIES

Money Making Chances in South Africa Are Phenomenal.
H. C. Dreyer yesterday received a letter from his brother-in-law, F. P.

Ermer, of Cape Town, South Africa. Mr. Ermer says there are all kinds of chances to make money in South Africa since the war has closed. What they need more than anything else is building material of all sorts. The dealers in that country are overrun with orders and cannot begin to supply the demand.

NEGOTIATE FOR CANAL TREATY

Secretary Hay and Colombian Attorney Discuss the Terms.

Washington, July 10.—Final negotiations for the conclusion of the definite treaty between the United States and Colombia, which is to authorize the construction of the Panama canal, began at the state department at a meeting between Secretary Hay and Attorney Cromwell, representing the Panama Canal company and the Colombian legation here. After conferring verbally with Mr. Cromwell, Secretary Hay turned over to him a mass of papers, which the counsel examined carefully. While a definite conclusion was not reached, it is stated that a distinct advance was made toward the end in view.

Sign Arbitration Treaty.

Buenos Ayres, July 10.—Argentina and Chile have signed a convention defining more precisely the objects of their recent treaties providing for arbitration and the limitation of armaments.

Duchess of Atholl Dies.

Rome, July 10.—The duchess of Atholl (who was the eldest daughter of Sir Thomas Moncreiffe) died while on her way from Italy to Switzerland.

WAS INJURED BY UNLIGHTED SWITCH

Conductor Corson Hurt in the Darlington Yards, But Stuck to His Post.

Conductor George Corson, of the Milwaukee road was struck by an unlighted switch in the Darlington yards on Tuesday evening and severely injured. The accident occurred on his run out from this city but he did not give up his train to another conductor until he had brought it back as far as Calamine when he surrendered authority on Wednesday morning to another and rode on to Janesville where he went to his home on Terrace street.

Conductor Corson who is the oldest conductor on the Mineral Point division was on No. 7 in the Darlington yards, when he went up to the head end to drive off some tramps who were enjoying a free ride. As he was about to remount the train a switch without a light struck him severely injuring him.

No bones were broken however and although he did not feel able to do it he ran the train as far as Mineral Point and then back to Calamine where he found a conductor who could take his place, Conductor Leahy from the Platteville train.

He was ready to give up his position and make the remainder of the journey to Janesville as a passenger. He will probably be out again in the course of a couple of weeks.

Cape Premier Sails.

London, July 10.—The early opening of the parliament of Cape Colony, fixed for Aug. 20, has necessitated the hurried departure of Sir John Gordon Sprigg, the Cape premier. He will sail for Cape Town Saturday. Consequently the colonial conference is deprived of his assistance.

Indiana Pharmacy Board.

Fort Wayne, Ind., July 10.—The Indiana state board of pharmacy will examine thirty-five applicants for license to practice pharmacy. The board reorganized by electing H. E. Glick of Lafayette president, G. W. Sloan, Indianapolis, secretary.

New Bank at Griggsville.

Springfield, Ill., July 10.—A permit was issued by the auditor to F. H. Farrand, E. E. Williamson, Perry Harshman and William Harvey to organize the Illinois Valley bank at Griggsville, capital, \$25,000.

Castellane Loses Seat.

Paris, July 10.—The chamber of deputies by a vote of 307 to 224 invalidated the election of Count Jean De Castellane, a brother of Count Don De Castellane, at St. Flour, department of Cantal.

JUST PLAIN, COMMON SENSE.

There may not be much literary ability displayed in our advertising. We do not believe in turning verbal "hand-springs" or summersaults to attract the attention of our buying public. But we do believe in using common sense in our announcements. There is a vein of common sense in most folks; to reach that vein is what this store is after, and we try to reach it by talking clean, straight-from-the-shoulder facts concerning our methods; merchandise and prices. Sometimes we hit, sometimes we miss, but we aim to hit every time. When we miss the loss is as much yours as ours. Do these values hit?

A Great Cut in Waists...

The time has come to reduce the stock of SHIRT WAISTS. To accomplish it we quote PRICES below that smack of BARGAINS pure and simple. The word BARGAINS is used here in its TRUE SENSE. THE SHIRT WAISTS that we offer at such remarkably low figures are beautiful colored waists. THE KNICKER-BOCKER WAISTS, which for style, fit, and workmanship, stand at the head. First to come get the best pick. Read our prices, consider the quality of the waists, their general excellency, then buy liberally, you'll not regret it.

48 cent Waists for 39c
75 cent Waists for 55c
\$1.00 Waists for 79c

The Summer Wash Skirts...

We've been among the best makers of summer separate skirts. They had some handsome lots to offer at most attractive prices. The prices that attract us are bound to attract you. Our LINEN and PIQUE skirts have met with popular favor and the sale has been very satisfactory. We are now offering them at reduced figures because it's after the 4th. INVESTIGATE.

News of Muslin Underwear...

The July sale of muslin underwear you'll find very attractive from every standpoint. Best materials, daintiest trimmings, full generous sizes, and prices that beckon you.

NIGHT CROWN ITEMS. At 50c embroidered trimmed yoke, with tucks, ruffle at neck, great value. Others that are excellent for 62½, 75, \$1.00.

LONG WHITE SKIRTS. At \$1.00 double ruffle of lonsdale cambric with three rows of hemstitching.

CORSET COVERS. At 25c, embroidered, fine grade of muslin. Full line up to \$2.00.

DRAWERS. At 25c, ruffled with three tucks. At 35c, cambric ruffle, three tucks, four rows of hemstitching, great leader.

No stock of UNDER MUSLINS like ours outside of the large cities.

We offer as extra special 50 bedspreads slightly discolored that were 75c at \$3.00. We also show two numbers in genuine Marseilles Quilts, large size at \$2.00 and small size at \$1.00. Are worth 3 to 4 dollars.

WEATHER FORECAST

Generally fair tonight, Friday slightly cooler.

THE PRIMARY LAW

An effort will be made at the convention next week to incorporate in the platform the defunct Stevens bill. It has been claimed, during the campaign, that the primary law was not an issue, but the claim was simply made for effect. If the governor controls the convention, the measure will be very much in evidence.

The delegates must understand that the Stevens bill is unpopular, and any effort to popularize it by party endorsement will only weaken and demoralize the party. The caucus law should be amended and so safeguarded that democrats will not interfere with republican caucuses, but a primary election law of the Stevens brand is altogether too radical.

If the republican party is to retain supremacy it will be necessary for it to harmonize on some of the leading questions that have contributed to discord and dissension. The primary law was a bone of contention during the session of the legislature, and the tenacity with which the governor clung to the measure added to his unpopularity. The members of both houses, who voted against the bill represented a republican constituency. There has been no change of sentiment and there will be none, so far as this obnoxious law is concerned.

It will be well for the LaFollette element in the convention to remember, that the men who oppose them, represent to a man the strong republican sentiment of the state. No "fair-minded" democrats were solicited to aid them. The glory that attaches to victory, won by questionable methods may occasion enthusiasm for the moment, but it is nothing to be proud of. Democratic caucus support means but little, when the two parties are lined up against each other in November. If the republican party wins, it will be because in some way, some of the barriers are removed, and at least a spirit of toleration is evidenced.

The primary law is like a red rag, and if it is flaunted defiantly, results will be disastrous.

The element in the party which has opposed the governor's nomination is in no position to be driven or defied. Should he be re-nominated he will need the united support of this element to re-elect him. Democrats, whether fair-minded, or otherwise, will vote the democratic ticket. Much depends on the action of the convention. If a spirit of fairness prevails, it will be recognized, but if blind enthusiasm, leads to rash and hasty action, the party will suffer.

This is an off year. The campaign will be destitute of enthusiasm at the best, and every republican vote will be needed.

If good judgment and common sense prevails, the primary law and other objectionable features will be discarded and an effort made to conciliate contending factions.

THE ISLE OF PINES.

Citizens of the United States who have gone down to the southern clime and settled upon the Isle of Pines are uncertain of their national status. Since the evacuation of the Island of Cuba by the American forces and the formation of the constitutional government they have been divorced from all semblance of law. They boundaries are a country by themselves outside of the Cuban republic boundaries and are a country by themselves. They have a little form of government of their own but it is not sufficient. They want protection. They have no real leader, no real head of their government. Many of the citizens being Americans would like to have the United States annex the island. They would prefer to have old Uncle Sam guarding their rights than to be without any country or any flag. Cuba may object. While the island is left out of the republic by the Platt amendment still they may prefer not to allow the United States to secure possession. They may annex it themselves as a part of the original Spanish tract called Cuban province. The failure of the Cuban republic bill has not made friends for the United States in Cuba and we may yet reap the fruits of our folly in turning down the helping hand to the baby republic we have helped rear.

The Wisconsin State Journal is trying to make up for its double faced dealings in the political game of the past year. Now that it has practically defeated all hopes of Senator Spooner's clean victory it deserts LaFollette and devotes all its columns to boosting the Senator for re-election. Strange fantasies sometimes enter the minds of men. The old saying, "He whom the gods would destroy they first make mad," is exemplified in the Journal's course in the past year.

"Gov. LaFollette is in a position to be helpful, if he wishes, for no doubt, the Committee on Resolutions in the state convention will be made up with his approval. The governor has every inducement to be fair and generous toward Spooner. Successful in his own aims, multiplied inducements lead him to join in the return of Senator Spooner to Washington. There is the sense of fair-

ness and loyalty to those republicans who upheld the Governor, without surrendering their allegiance to Senator Spooner, and who have denied the frequent contention of Gov. LaFollette's critics, that his success means the slaughter of Senator Spooner. There is the opportunity of his life to lay forever the belittling and hurtful charge that the governor is an "Indian"—revengeful, malevolent. What avails honors, success, if a man's reputation is thus to be handed down to his children—what glory in the memory by Wisconsin of a manhood that was not able to tower above the passions and furies of little souls to whom time and opportunity are only sweet because they open the door to revenge?

"We look to see Gov. LaFollette put an end to the long continued charge that his soul lacks breadth; that his world is too small for more than one man; that to punish his enemies more engages him than to well administer the state."

"When thieves fall out then the truth comes to the surface," Governor Jeff Davis of Arkansas has written to President Roosevelt that to appoint Senator Jones, of that state, on the Canal question as a democrat would not be right. If he is named as a republican all right. Why, when Jeff Davis was a small ward politician, Sen. Jones was heralding the fallacies of democracy broadcast. Now Jeff has gotten to be governor he thinks he is the dictator of the party policies and can read Jones out of the party. Poor Jones.

Several Evanston idiots have formed a combination, or trust, against kissing. They consider it as "demoralizing and detrimental to the brain." Too bad about the old maids of Evanston. Perhaps if some young fellow came along with a good smack or so he might convince some of the members that kissing, to those who have never been kissed, is not half bad.

Dowle, named John Alexander by his christian parents, and Elijah Second by himself, is to establish a court in Zion City. He will have a man on the bench, court bailiffs, professional jurymen and all that is necessary and then he will dictate the laws himself and collect the fines. Wise old Dowle.

It is estimated by an expert that there are no more than seventy truly wild buffalo in the United States. An exchange commenting on it says: "Yes that is true and the 11 cent kind once so numerous, have entirely disappeared."

The poor day laborer will be delighted to learn by his evening paper that Johnny Gates has made \$1,000,000 or \$5,000,000 on his corner on corn. Poor Gates needs the money so badly that he has the sympathy of all.

The only big firm in the United States that never has strikes is your Uncle Samuel and usually before the affair is over Uncle Samuel has to step in and help out the poor corporations who need the money.

Tracy the outlaw is still at large and wearing out any number of sheriffs. Why not send General Funston out after him? He was so successful with "Aggie" why not let him add to his fame by catching Tracy?

During the first six months of the year the total immigration into the United States was 316,711. There are five states in the union that have a smaller population and only eleven cities with larger.

No need for summer hotel proprietors to point to their boating facilities. All the inducement they can offer now is a stock of umbrellas and goloshes.

Golden Rule. "Jones of Toledo has a son named Percival. Yet Mr. Jones poses as a friend of the people."

Aunt Carrie has called Dowle "An infernal old fraud." Sometimes Auntie hits things just right even though she may be off in others.

The question is did Morgan form a pretzel trust when talking with Emperor Willie or did he suggest a "strong" trust of Limberger cheese?

PRESS COMMENT
Oshkosh Northwestern: "There is hardly any warrant as yet for spending of 'this summer.' The proper way seems to be to refer to it as 'this season.'"

Darlington Republican Journal: The only trouble in Kansas at present is to make sure that the per capita of muscle is equal to the supply of wheat to be harvested.

La Crosse Republican and Leader: A trade journal reports that the visible supply of caviare has been greatly reduced. This is a calamity that most persons can view with stoical indifference.

Eau Claire Leader: The acrimonious sarcasm with which Democratic members of Congress received the recent speech of Hon. Grover Cleveland was entirely in accordance with the vaunted harmony of the party.

Elkhorn Independent: After July 16 we can all hurrah for the Republican ticket, whether stalwart or half-breed. That is all Republicans and Democrats as well, will be made welcome if they come into our camp.

Sheboygan Telegram: It is quite certain that, if, as claimed, the natural conditions have tended to produce high priced meat, the beef trust

was in no way backward in "assisting nature."

Milwaukee News: Mary McLane's book has been barred from the public library at Evanston, but copies may be still secured at the store conducted by the gentleman who holds the position as secretary of the library board.

Milwaukee Sentinel: The announcement that Mrs. Langtry has settled an income of \$10,000 a year on her daughter leads to the reflection that beauty is sometimes more to be desired than mere intellect.

Brooklyn Eagle: The modest girl, the prudent wife and the careful matron are much more serviceable in life than petticoated philosophers, blustering heroines or virago queens. Now, don't throw missiles this way. Oliver Goldsmith said that.

Fond du Lac Reporter: If you are not prepared to be shot through the air at a mile-a-minute rate for twenty hours, do not arrange to take the fast trains out of Chicago when you go east. There are plenty of trains consume thirty hours in making the trip.

Chicago Record-Herald: If Ambassador Choate is either ashamed or afraid to let the eagle loose on the Fourth of July it would perhaps be well for him to send in his resignation and devote himself wholly to sympathizing with William Waldorf Astor.

Philadelphia-Record: From present indications a prohibition crusade is about to be inaugurated in Illinois. In many of the states the prohibition epidemic recurs at regular intervals of ten or fifteen years, the intervals being longer in some states than in others.

Waukesha Freeman: The question of double taxation that results from the assessment of evidences of debt is becoming much more generally understood than it was, and the agitation of the subject is pretty likely to result in public sentiment in the right direction.

Whitewater Register: As there is a majority of half-breed delegates elected to the state convention the exuberant joy of the half-breeds is irrepressible, and in some of their organs it has developed into an arrogance typical of cheap natures. We have no kick to offer; the disposition shown is sure to work the destruction of those afflicted with it.

Madison Democrat: The act recently passed by the British Parliament for the protection of wild birds seems seriously inadequate. The only penalty it provides is that an offender may be deprived of the bird or egg he has unlawfully obtained. This may make collectors rather wary, but still hardly deter them from replenishing their depleted collection.

Boston Herald: Womenkind are now being treated to detailed accounts of what the Countess This and Lady That would have worn if there had been a coronation. That this is highly interesting we have not the least doubt, but it lacks charm and elegance. Nothing undisciplined as it would have been in Westminster Abbey.

Green Bay Gazette: Why are the half-breeds in such a hurry to dub the stalwarts bolters? Is not a bolter one who fails to abide by the decision of the convention at which he is either present or represented? Have the stalwarts earned the title or are the half-breeds only anxious to push them to the bolter point? Some good advice at the present time is sadly needed in the councils of the half-breeds.

Wisconsin State Journal: The recent wild discussion of game warden and the over generous fee system should lead to revision. It seems absurd that thirty or forty thousand dollars should be spent in a year in guarding the preserves of the state; The fish and game of the state are an important asset but there must be a better way of financing their defense.

Whitewater Register: Congressman Cooner has won high distinction through furnishing the governmental plan by which our Philippine possessions are to be controlled. There was a hot contest over the matter. Senator Lodge had prepared a measure which received warm support. A conference committee between the two houses was necessary to secure a settlement of the question as to which plan possessed the more merit and the Cooper bill won out. Our representative is entitled to hearty congratulations.

MATERIAL HERE FOR NEW LIBRARY

Everything is in Readiness for Rushing the Work if the Weather Permits.

The heavy lumber for which the work on the city library has been so long delayed arrived Tuesday. It consisted of two car loads of southern pine from Mississippi which is to be used in the frame work of the building. The delay it is supposed was caused by wet weather in the South which prevented handling the lumber in sufficient quantities to meet outstanding orders.

As soon as the floor is laid an extra large force of men will be put on the work and every effort will be made to push it to completion in the shortest possible time. Now that the materials are on hand it is feared that wet weather will continue to delay the work.

In addition to the lumber there are five carloads of brick awaiting the time when it will be possible to go on with the masons' work on the building.

BADGER GIDEONS HIGHLY HONORED AT NATIONAL CONVENTION

Four Janesville Men Hold Official Positions in Christian Traveling Men's Order.

Wisconsin Gideons and more especially Janesville members of the order were signally honored at the national convention of Gideons which was just closed a three days session at Cedar Rapids, Ia. Three of the principal officers were conferred on men from the Badger state and two of the national officers claim Janesville as their home.

J. H. Nicholson was re-elected secretary and W. J. Knights was again made national treasurer, positions which these gentlemen have held ever since the organization of the order. The other Wisconsin officer is Rev. L. C. Smith of Oshkosh, who was elected national chaplain. Frank A. Guard, of Chicago, was elected president and A. B. Moore, of Cedar Rapids, vice president of the national order.

Janesville has been further honored by J. H. Nicholson, L. K. Crissey and W. T. Mayhew, of this city, having been appointed on the national membership committee.

The Gideons and their wives were royally entertained in Cedar Rapids, a carriage drive and a reception given by Mrs. Deacon for the ladies being among the social features. At the reception the guests were presented with decorated plaques for souvenirs.

The official Gideon souvenir was especially attractive, a cross being suspended from the bar bearing the words, "Cedar Rapids, 1902." In the center of the cross is the Gideon emblem bearing the white pitcher and flaming torch on the blue background. The 1903 convention will be held in Indianapolis.

The Janesville delegation at the convention included Mr. and Mrs. J. H. Nicholson, W. J. Knights, W. T. Mayhew and J. E. Winney.

Henry B. Johnson, a pioneer settler of Rock county since the year 1844 and a resident of this city since 1887, died this afternoon at his home, 11 Milton avenue, shortly after 2 o'clock. He had been in poor health for some time past. On Tuesday night he was stricken with paralysis and since that time the word of his death has been expected at any moment. He leaves two sons, Edwin Chapman and Horatio Seymour.

EXPLAINS O'HARA DEATH

Another Man Suffers From Same Leaky Fixture

Four mornings after the late William O'Hara was found dead in his room at Mrs. E. McElroy's boarding house in Milwaukee, Max Utter, of Bradley, Mich., was found in the same room, so nearly dead from asphyxiation that his chances for recovery are very slight. Utter had been given the room two days after Mr. O'Hara's death and the circumstances attending the two accidents were almost identical. People of a superstitious nature regard the room as a hoodoo but the hoodoo could doubtless be broken by employing a plumber to repair the defective gas fixture.

Mrs. Catherine Smith

Funeral services for the late Mrs. Catherine Smith were held from St. Mary's church this morning. Rev. W. A. Goebel, pastor of the church, officiating. There was a large attendance of sorrowing friends and many beautiful floral offerings. When the last sad rites had been said the remains were taken to Mount Olivet cemetery for interment, the pall bearers being J. M. Kneff, William Cox, Peter Daly, John Cone, John Donahue and Thomas Peery.

HERE FROM CALIFORNIA

Leon Minor, A Former Janesville Resident, Visiting Relatives Here

Leon Minor, of Los Angeles, Cal., arrived in the city yesterday and will be the guest of his uncle and aunt, Mr. and Mrs. W. H. Merritt, for the next ten days. This is Mr. Minor's first visit to his old home in nine years and he finds many changes in the city. He says everything has an unfamiliar look, but the people and he anticipates great pleasure in greeting old friends. Mr. Minor graduated from the Janesville High school in the class of '89. For several years he has held a responsible position in the registry department of the Los Angeles post office.

CLASS HOLDS REUNION

Graduates of 1899 Join in a Picnic at Lake Geneva

Yesterday a number of the members of the class of '99, Janesville High school, enjoyed an excursion to Lake Geneva and spent a memorable day. The reunion of old classmates was an exceptionally pleasant one. The picnic dinner and supper were served at Reed's park and the pleasures of the day included a steamer ride around the lake. The party returned at 9:15 last evening. Many pleasant reminiscences will be cherished by those who enjoyed the day together and "the man who spent a dollar" will be especially remembered.

LITTLE TRADE IN CORN ON THE CHICAGO BOARD

Price is Well Maintained, Quotations Holding at 86 to 88 Cents for the Day.

Chicago, July 10.—Developments in the corn deal yesterday were the failure of at least two expectations. One was that the bottom would drop out of the market because of reported settlements with outstanding shorts, which would mean the abandonment of the deal by the bull traders, and the other that the screws would be given a turn by the Harris-Gates people and the price forced still higher.

Neither happened and the price moved along quietly within a range of 2 cents, fluctuating between 86 and 88 cents and closing at the lowest point of the day, 1 cent lower than Tuesday.

Not over 100,000 bushels of the corned grain was traded in during the session. The buying was by commission houses entirely, principally by the Richardson company, Norton & Switzer, and R. E. Pratt. There was of course no intimation as to the principals, but if they were shorts they were small ones.

The big ones, and these may be covered in a general way under the title of "the elevator interests," are still out. There are only two places where they can cover. One is in the corn pit on change and the other the private office of Harris-Gates & Co. The size of the transactions show they have not bought openly, while a member of the Harris-Gates firm insists he knows nothing of any private settlement.

Telephone Strike Is Ended.

Des Moines, Ia., July 10.—The strike of the operators of the two telephone companies, which has been in progress since June 20, is ended. The companies concede the minimum scale of \$1 a day, agree to recognize the operators' union and to restore the strikers to their former positions. The operators had been receiving from \$3.50 to \$5 a week.

BIG FORTUNE FOR LA PRAIRIE WOMAN

MRS. FANNIE PHILLIPS IN LUCK

Receives \$260,000 as Her Portion of Her Grandfather's Estate in Scotland.

Mrs. S. Fannie Phillips, of the town of LaPrairie, has fallen heir to \$260,000, her portion of the McDonald estate in Scotland amounting to \$8,000,000, has successfully established her identity as one of the heirs and has received her share of the estate through her legal representatives.

Mrs. Phillips is at present visiting her daughter, Mrs. R. H. Courtright at Santa Ana, Cal., and it was there that she came into the possession of her legacy. She expects to return home in two or three weeks.

The estate has been in contest for several years. It was owned by Mrs. Phillips' grandfather, a Mr. McDonald, who was drowned in the Ohio river many years ago. Considerable trouble was experienced in finding the lawful heirs to the Scottish estate, and negotiations have been pending for over three years for the amount due the McDonald heirs.

The case has just been determined in favor of the McDonald family to which Mrs. Phillips belongs. There were several other McDonalds who claimed that they were heirs but they failed to furnish the necessary proofs.

Mrs. Phillips is well known in this city and throughout Rock county and her friends will extend hearty congratulations on her good fortune.

Mrs. Laura E. Burr returned home last evening from Milwaukee, having been called to the city to attend the funeral of her father, the late Daniel F. Packard, whose death occurred last Saturday night. Mr. Packard was eighty-six years of age and was a pioneer resident of Milwaukee, having resided in that city since 1835. Mr. Packard had frequently visited in this city as the guest of his daughter, Mrs. Burr, and his kindly nature made for him many friends who will sincerely mourn his death.

Yousseff Here: Yousseff, the terrible Turk, was in the city yesterday on his way to Beloit where he and Reinhold Schott of Watertown hold a wrestling bout this evening.

Mrs. H. C. Dreyer left yesterday morning on a visit with friends in Chicago. She has been invited by her friends to take a pleasure trip on a private yacht. They will end the cruise at St. Joe, Mich., after which Mrs. Dreyer will visit relatives in Milwaukee for two weeks.

HALT IN STRIKE SETTLEMENT

Freight Handlers and Railway Managers Still Apart.

Chicago, July 10.—Resolute effort, extending throughout the day and lasting until 10 o'clock last night, failed to bring about the looked for settlement of the strike of the freight handlers, and as a last resource the final tender of terms by the railroad managers was submitted to the four local unions of the organization engaged in the struggle this morning. The local unions will take up the problem that their executive council could not solve, and a popular vote is to be taken, with the belief that the terms of the employers will be accepted.

GANG OF DAGOES SENT TO CHICAGO

TRAVEL BY SPECIAL TRAIN

Milwaukee Road Sends Labor Crew to Handle Freight, During Continuance of Strike.

The Chicago & Milwaukee road has taken a hand in giving aid to the freight department in Chicago by sending a large road gang which has been for several weeks past at work on the washouts along the line. They left early this morning on a special boarding train which is to serve as their living quarters in Chicago and arrived in that city at 7:00 a. m.

Italian Crew

The crew which has been sent to join the army of non-union freight handlers is made up of between seventy-five and one hundred Italians under the orders of Sullivan and Boardman. For a couple of days they have been engaged in repairing the washed out track near Boynton's cut and in doing surface work along that section of the track and when picked up this morning by the engine which left the Janesville station at two o'clock they were in their boarding train at Solon Mills.

Their Quarters

This boarding train will solve the problem of accommodation for them. It will be needless to throw open passenger depots to lodge them, with Pullman porters to serve them, or to send them to the best hotels of the city at the company's expense.

Special Train

The gang traveled in its own sleeping, dining and parlor cars in which it has been quartered during the weeks past and it will make them its headquarters during its stay in the Windy City. The sleeping, dining and parlor cars of the Dagoes consist of box cars with bunks on the sides and with tables running down the middle for sleeping and eating compartments and another freight car with a cook stove and pans, kettles and pots as the chef's cuisine.

Go To Union Street

The train left here under orders to run slow so as to arrive at Union street, Chicago at 7:00 o'clock, and to wait there until called for.

Frank J. Brown and family are spending a week at Mr. Brown's summer cottage at Lake Koshkonong.

IS CONFIDENT OF MINERS' SUCCESS

President Mitchell Feels Assured the Men Will Achieve Victory.

CITIZENS' ALLIANCE IS PLAYED

Says the Wilkesbarre Organization is a Partisan Body Acting in Conjunction With the Operators and Against the Mine Workers.

Wilkesbarre, Pa., July 10.—President Mitchell made his first public utterance to the strikers since the strike commenced. It was at the close of the first district convention in Nanticoke, where 75,000 miners were represented by the 400 delegates. He devoted most of his address to an attack upon reports emanating from the operators and upon the Citizens' alliance. He said statements are being sent as coming from the operators aimed to injure and discourage the strikers, and there is no truth in them. Of the Citizens' alliance, he said:

"When an organization of the citizens of any community is formed the alleged purpose of which is the maintenance of law and order, and when it develops the entire energy of the organization is being directed against the coal strikers, it arouses a suspicion, to say the least, in my mind that the alleged purpose is a cloak under which so called citizens have joined forces with the coal operators in a damnable attempt to crush the miners' union."

Scores Citizens' Alliance.

Further on he asked: "Did any one ever hear of the Citizens' alliance proceeding against the coal trust when it threatened to close the mines of the independent operators by refusing to give them railway cars simply because some independent operators had granted an eight hour day to their brethren in the strike one year ago? Moreover, has this great Citizens' alliance attempted to prevent the illegal efforts that the coal corporations are making to cause the defeat of every candidate for membership in the legislature of Pennsylvania who advocated or favored labor measures in the last session?"

In conclusion he said: "In all my experience in the labor movement I have never participated in a strike in which I felt so confident of success. If our membership will stand, as I know they will, in the not very distant future they will achieve a victory and settle for all time the right of coal miners to receive for honest labor and unremitting toil at least a sufficient wage to enable them to live, maintain and educate their families, and enjoy a few of the pleasures of our civilization."

Will Enter Politics.

The convention adjourned after passing resolutions declaring that the miners will encourage men from their ranks to become candidates for the legislature in order to obtain legislation which shall improve their condition.

The miners have 100,000 voters in the anthracite region. If there is no labor party formed the candidates who are now entering the field for the miners will run independently.

The laws that the miners will strive to have passed are: An eight hour working day act; an act establishing the ton of coal mined and paid for at 2.240 pounds; a company liability law which shall make the corporations responsible for damages in the event of men being injured; an act providing for the election of mine inspectors by the miners instead of by the whole body of voters; an act providing that coal and iron policemen shall be men of average moral standing.

WOMAN WAS TOO PROUD TO BEG

Sought Work in Vain and Nearly Starved to Death.

Evansville, Ind., July 10.—A woman giving her name as Ella Smith and claiming Owensboro, Ky., as her home was picked up on the steps of St. Mary's church nearly starved to death. She was sent to a hospital and is still in a precarious condition.

The woman comes from a prominent family at Owensboro, came here several days ago to look for work. She was unsuccessful and, too proud to beg for food, for four days and four nights she wandered about the streets and had nothing to eat.

Washington, July 10.—Charles J. ("Buffalo") Jones has been appointed Buffalo warden for Yellowstone park. Mr. Jones has devoted much attention to the preservation of the American bison.

Lightning Kills Cousins.

Hartford City, Ind., July 10.—Chas. Wentz, aged 37, and Dee Wentz, aged 19, both farmers and cousins, were killed by lightning on their farm three miles east of town.

Dr. Adams Is Worse.

Redlands, Cal., July 10.—A decided change for the worse has taken place in the condition of Dr. Charles Kendall Adams. Grave fears are felt that he may not survive.

When asked what made her face so long
"With fear in every feature,
"Cause Calumet's so very strong"
Replied the timid creature.

LATE TELEGRAPHIC NEWS

LEEVE BREAKS AT DES MOINES

Residents Forced to Abandon
Their Homes and House-
hold Effects.

RIVERS FAR ABOVE LOW WATER

Damage to Crops in Johnson County
Estimated at \$75,000—Half the City
of Fort Dodge is Inundated—Wash-
outs on the Railroads.

Des Moines, July 10.—Reports from
all sections of this western country
show that great damage has been done
by the heavy rainstorms and light-
ning. Farms and orchards have been
devastated, many buildings destroyed,
railway tracks and bridges swept
away and trains greatly delayed.
There has been some loss of human
life and much stock has been killed.

The flood situation in Iowa is more
serious than at any time in ten years.
The Des Moines, Iowa, Cedar, Raccoon
and Skunk rivers are from seven to
seventeen feet above low water mark
and the lowlands are submerged. The
levee in Des Moines broke, flooding a
large residence section. Nearly a hun-
dred residents of the threatened dis-
trict fled for their lives, in many cases
leaving their household goods behind.
Many people in other districts have
been forced to abandon their homes.
The Des Moines river dam is weaken-
ing, endangering four city and all the
railroad bridges. A large force of men
is trying to hold the Raccoon river
levee.

Damage to Crops.
In Johnson county the damage to
crops, orchards, buildings and live
stock is estimated at \$75,000. Wood-
bury and Menona counties are under
water. Numerous bridges have been
swept away in Linn county. Half of
the City of Fort Dodge is under water,
and business is paralyzed.

Onawa experienced a rain amount-
ing almost to a cloudburst, as a conse-
quence of which trains can neither
enter nor leave Sioux City from the
south. Washouts near Marshalltown
have delayed trains on the Northwes-
tern and Great Western railways. The
Milwaukee Railway has been com-
pelled to abandon its main line at Mad-
rid, owing to washouts between Her-
ndon and Manila, and is now sending
through trains by way of Des Moines.
Extra is under four feet of water, and
trains on the Audubon branch of the
Rock Island could not pass that point
today.

Streams Become Rivers.
Sioux City, Ia., July 10.—Damage to
the extent of many thousands of dol-
lars has been done in the bottom lands
southeast of Sioux City by floods.
Railroads have suffered severely from
washouts. Farmers, however, are the
greatest sufferers. Small streams,
usually a few yards wide, are now
swollen rivers miles in width. The
town of Oto, Horne Linton and Maple-
ton are flooded.

Five Inches of Rain.
Oskaloosa, Ia., July 10.—Almost five
inches of rain has fallen in Mahaska
county during twenty-four hours. All
streams are out of their banks and the
damage to this city and the surround-
ing country is general and heavy.

CANNED TOMATOES CORNERED
Sell for Double the Ordinary Price at
this Season.

Indianapolis, July 10.—Indiana can-
ners in state convention here say that
canned tomatoes are cornered and that
local jobbers are now paying \$1.75
a dozen for three-pound cans, which
is the highest price since the war.
Ordinarily at this time of year the
price is about half this figure. Not
an Indiana packer has had a can of
tomatoes in his factory for four
months, it is said. The weather was
against a good crop last year. About
15 per cent of the acreage has been
destroyed by the recent storms and
high water.

Code for Ohio Cities.
Put-in-Bay, Ohio, July 10.—The pro-
posed code for the government of
Ohio cities will, it is said, be a close
model of the form of government now
in operation in Cincinnati. This plan
has been used for fifteen years and
is said to have been very satisfac-
tory. The police board will be ap-
pointed by the governor and the fire
board by the mayor. The only other
board will be a board of public works
of five members, to be elected.

Little Girl a Life Saver.
Springfield, Ill., July 10.—Bessie
Trimble, aged 12, fell into the lake
at Reservoir park. Nellie Glover,
aged 8, succeeded in grasping her
by the clothing before she sank. No
one was by at the time and the Glover
child held her grip for fifteen min-
utes before help arrived.

Ohio Man Buys a Yacht.
New York, July 10.—F. W. Sykes
of Leith, Scotland, has sold to Wil-
liam L. Harkness of Cleveland, Ohio,
a member of the New York Yacht
club, the British steam yacht Gunilda,
which is now being refitted at South-
ampton, England, for the trip across
the Atlantic.

Fire at Beatrice, Neb.
Beatrice, Neb., July 10.—Two gro-
cery stores and Klein's big depart-
ment store are on fire. The fire has
gone beyond control of the firemen.
The water works were closed by the
floods and the city is without fire pro-
tection.

DECIDES FOR BALL PLAYERS

Judge Wing Declares He Has No
Jurisdiction in the Case.

Cleveland, O., July 10.—The United
States circuit court room had the
appearance of a headquarters for base-
ball fans during the hearing for a pro-
lunary injunction by the Philadel-
phia National league club to prevent
Lajoie, Bernhardt and Flick from play-
ing with the Cleveland team.

The case of Pitcher William H.
Bernhardt was the first called. The
plaintiff's original petition stated that
the plaintiff's club was a Pennsylvania
corporation and the defendant was a
citizen of New York. The defense
claimed it such was the case the
United States court had no jurisdic-
tion, and asked to have the case dis-
missed. The plaintiff then amended
the petition and alleged that Bern-
hardt was a citizen and resident of
Ohio. In attempting to prove this
Bernhardt was placed on the stand
by the plaintiff.

Judge Wing held Bernhardt was not
a citizen of Ohio and dismissed the
case.

Judge Wing also decided that his
court had no jurisdiction in the Lajoie
and Flick cases.

Find a Valuable Pearl.
Prairie du Chien, Wis., July 10.—
One of the largest globe pearls ever
taken from a Mississippi River clam
shell was found by Frank Ferguson.
The pearl is bluish-white in color,
nearly round and weighs 124 grains.
Ferguson sold it for \$1,750.

Kills His Sister.
Sioux City, Iowa, July 10.—Hazen
Matthews, aged 6, played circus with
his sister Ruby, aged 4. In one of
his stunts he jumped upon her stom-
ach. This caused ruptures and hemor-
rhages, from which she died.

Barkley Chief of Pythians.
Springfield, Ill., July 10.—At an
election held by the Illinois division
uniformed rank. Knights of Pythias
Gen. James H. Barkley of Springfield
was unanimously elected commander
of the division.

Pensioner of '76 Dies.
Knoxville, Tenn., July 10.—Nancy

war pensioners, died here.

PRESIDENT INVITES CABINET

Secretaries Asked to Visit Roosevelt
at Oyster Bay.

Oyster Bay, N. Y., July 10.—Presi-
dent Roosevelt has informally invited
the members of his cabinet to visit
him at his Sagamore Hill home. It
is understood they will avail them-
selves of the opportunity to come
to Oyster Bay. Secretary Root will
be one of the first to come.

The president has decided not to
announce appointments from Oyster
Bay. All appointments, as hereto-
fore, will be given out from Washing-
ton.

Names for Battleships.
Washington, July 10.—It is probable
that the battleship to be built at the
New York navy yard will be named
the Connecticut. Secretary Moody has
been advised that it is desirable to
have the four big ships just authorized
named as soon as possible and he
probably will assign the names of the
states selected, Connecticut, Tennes-
see, Louisiana and Washington.

Killed by a Thrashing Machine.
Mascoutah, Ill., July 10.—Jacob
Schreg, a feeder of a thrashing ma-
chine, was killed by the breaking of
the cylinder on a farm near Fayette-
ville. A piece of iron was fed into
the machine, causing the accident.
He leaves a wife and six children.

Drowns While Bathing.
Wabash, Ind., July 10.—Goldwin
Ray, aged 18, was drowned in the
Mississinewa river at Red Ridge.
Ray's home is at Red Key, Ind., and
he and a party of friends had been
camping. He was caught by the cur-
rent while bathing.

Poisoned by Mulberries.
Elgin, Ill., July 10.—Mrs. Frank
Heas is in a critical condition from
poisoning as the result of eating mul-
berries. She had been visiting friends
and ate some berries. Shortly after
she was taken violently ill.

Succeeds Judge Williams.
Put-in-Bay, Ohio, July 10.—Gov.
Nash has decided to appoint Judge
W. B. Crew of McConnellsville to the
place on the supreme bench made
vacant by the death of Chief Justice
Williams.

Fire at Clarksville.
Clarksville, O., July 10.—This vil-
lage would have been wiped out by
fire but for the timely arrival of the
Morrow fire department. The loss
was limited to \$50,000, and it included
the city hall.

Injured at a Circus.
Ulrichsville, O., July 10.—The tents
of W. H. Harris' show, filled with
about 500 people, blew down during a
storm. Twenty-five people were in-
jured, but no fatalities are known to
have occurred.

BIG SHIPS CRASH DURING DENSE FOG

Liners Come Together in
Narragansett Bay, Off
Port Judith.

PASSENGERS GROPE IN DARK

Inflow of Water Extinguishes Electric
Lights, and Life Preservers Were
Passed by Men with Candles—Sail-
or Crushed in Bunk.

Newport, R. I., July 10.—Stern first,
with head low in the water and with
a great hole in her bow and a dead
man in her hold, the Fall River line
steamer Priscilla was dragged to her
berth here by the steamer Puritan.
The dead man was John Muniz, a
Portuguese deck hand, who was
crushed while asleep.

The Priscilla had been in collision
with the Merchants' and Miners'
Transportation company's steamer
Powhattan in Narragansett Bay off
Port Judith, and for six hours had
waited for help.

The Priscilla was struck fair by the
Powhattan and her bow nearly cut
off. The stem of the latter penetrated
fully twenty feet into the hull. The
washroom on the main deck and the
sleeping quarters and steering engine
compartment below were wrecked and
the steel plates of the bow were torn
away well below the water line.

Lights Put Out.
The forward bulkhead was broken
through, thus placing two compart-
ments out of condition and rapidly
sending the steamer down by the
head, so that her stern came out and
the rudder was rendered useless. The
inflow of water very soon extinguished
the electric lights, the dynamo room
being in the vicinity of the damaged
part of the ship.

The passengers, most of whom were
in bed, were turned out of their rooms
in darkness, and their nervousness
and excitement was intensified as they
found men passing out life preservers
by candle light. There was no panic,
although no help was near, and the
steamer was apparently in great
need.

Towed to Port.
It was the sister ship of the Priscilla,
the Puritan, which came to the
rescue. She was on her way from
New York when she heard the sig-
nals of distress. Putting a line on
board, she took the Priscilla in tow,
stern foremost, for Newport. The
vessels arrived here without further
 mishap and the passengers were land-
ed safely.

Promptly upon the arrival of the
steamer a careful inspection of her
damage was made. It was then found
that John Muniz had been caught in
his bunk by the wreckage. He was
dead and his body was securely
wedged in between iron rods and
beams in such a way as to render
mechanical appliances necessary to
release it.

The officers of the Priscilla state
that the Powhattan had not been
sounding her whistles and that when
she did at a late moment she gave
the wrong signal, and then the crash
came.

OLD PEOPLE

Have a charin of their own when they
are not weak and feeble, but hale and
hearty, enjoying the sports and pleasures
of youth though they cannot participate
in them. The whole secret of a sturdy
old age is this: Keep the stomach and
organs of digestion and nutrition in per-
fect order. The young man who does
not think of his stomach will be made to
think of it as he grows old. It is the
"weak" stomach, incapable of supplying
the adequate nutrition for the body,
which causes the weakness and feeble-
ness of old age.

Dr. Pierce's Golden Medical Discovery
cures diseases of the stomach and other
organs of digestion and nutrition. It
makes the "weak" stomach strong, and
so enables the body to be fully nourished
and strengthened by the food which is
eaten.

"I suffered for six years with constipation
and indigestion, during which time I employed
several physicians, but they could not reach
my case," writes Mr. C. Popplewell, of Eureka
Springs, Carroll Co., Ark. "I felt that there
was no help for me, could not retain food on my
stomach; had vertigo and would fall helplessly
to the floor. Two years ago I commenced taking
Dr. Pierce's Golden Medical Discovery and
little 'Pelle's' and improved from the start.
After taking twelve bottles of the 'Discovery' I
was able to do light work, and have been im-
proving ever since. I am now in good health
for one of my age—60 years. I owe it all to Dr.
Pierce's medicines."

Dr. Pierce's Common Sense Medical
Adviser, in paper covers, is sent free on
receipt of 21 one-cent stamps to pay
expense of mailing only. Address Dr.
R. V. Pierce, Buffalo, N. Y.

OIL PROSPECTS IN KENTUCKY FIELDS

Wisconsin Capitalists Are Interested in Productive Wells in the Southern State.

Madison, Wis., July 10. (Special)—The new oil fields being opened up in Kentucky, and in which Wisconsin capital is largely interested, are showing up better every day as development continues, according to Mr. Chas. A. Sussner, a practical oil man of many years experience, and for a long time superintendent of pipe lines in Kentucky and Tennessee for the Standard Oil Company. Mr. Sussner was in the city yesterday, and in speaking of the new district said:

"The Kentucky oil fields are just coming to the front and showing an identity to the Pennsylvania and West Virginia districts. There has been but little deep drilling done in the state until recently. Within the past six months deeper drilling has been done and with results that leave no room to doubt the permanency of the various oil districts. Commencing on the West Virginia border of Kentucky are the Floyd county fields. The Standard Oil company has been operating there for several years, with the result of bringing in a large number of small wells, but deeper drilling there has brought in some big producers. On the Tennessee border in Wayne county deeper drilling has also been done, bringing in some big wells.

Knox County Wells.
"Lying between these two counties is Knox county, which now is giving every evidence of being better oil territory than either Floyd or Wayne, and more nearly like the Siskiyou, W. Va., section, to which it has been compared by geologists and experts familiar with both. During the past year a number of shallow wells have been brought in, but I do not consider them of as much value in establishing the district as some recent deep wells which have been drilled in, and I think most oil men agree that some big pools of oil will be shown up by drilling in the deeper sands. Besides the shallow sands all above 900 feet, there are three oil sands below, one of which, at 1,300 to 1,400 feet, has been pretty thoroughly established. I look for some big things from this sand when sufficient drilling has been done to test them. I cannot say as much about the sands at 2,300 to 2,500 feet, or those at 3,000 to 3,300 feet, as not enough drilling has been done to determine their value. However, these same sands in West Virginia furnished the biggest payers.

Wisconsin Interests.
"The Wisconsin men interested in Kentucky have some of the best holdings, and your local company, the Badger Oil & Gas Co., is especially favored, having several farms which are close to well-defined oil pools, and I believe if well managed cannot fail to bring its stockholders big returns."

Mr. Sussner has been engaged by the Badger company to take charge of its operations in the Kentucky field, and left last night for the Flat Lick district for that purpose. Railroad Commissioner Rice, who with Secretary of State Froehlich, President Insurance Commissioner Giljohann, and other state officials and employees, are the principal stockholders in the company, and Manager M. C. French, have just returned from a visit to the property, and are more than satisfied with the prospects. At a meeting of the directors since their return it was determined to push the wells five of which are already completed to the first sands, with good prospects as producers, down to the lower and still richer sands, and to carry all future wells further down. A pipe line is now being constructed within five miles of the property, and there will be no trouble in getting the oil to market.

SEÑOR QUESADA MAKES DENIAL

Says That Prominent Cubans Have No Intention of Resisting Newly Established Government.

(Special By Scripps-Mellae)
Washington, D. C., July 10.—Cuban Minister to the United States, Señor Quesada, makes an emphatic denial to General Fitzhugh Lee's statement that anarchy threatened the island of Cuba.

Assured Support.
Señor Quesada states that prominent generals all over the island have assured President Palma their intention to uphold and support the government. He himself sees a glorious future for the new republic.

T. S. Nolan, chairman, he confirmed. The motion carried.

On motion of A. C. Powers the chair appointed five tellers to collect the ballots.

S. W. Menzies moved that the convention proceed to the nomination of sheriff.

Appleby Is Nominated.
L. E. Gettle withdrew the name of L. U. Fisher in the interests of harmony in the county and also moved that he clerk cast the ballot of the convention for George M. Appleby for sheriff. The motion carried and George M. Appleby was declared elected.

Mr. Appleby accepted the nomination in a neat speech promised to carry out the duties of the office to the best of his ability.

County Clerk Contest.

The convention then proceeded to ballot for county clerk. C. E. Langworthy presented the name of Howard Lee, K. Killam, presented the name of Wm. M. Ross for the office, F. P. Starr was the other candidate.

The first ballot resulted as follows: Starr, 82 1-2; Lee, 61; Ross, 14. Starr having a majority of the votes cast was declared nominated.

Mr. Starr accepted the nomination in a neat speech and eulogized Washington, Lincoln, Grant and Roosevelt.

K. Killam presented the name of Theodore W. Goldin as clerk of the court.

L. E. Gettle made another speech in regard to the standing of the convention and asked them to fight the common enemy and said that there should be a rotation of county officers and there should be a change in the offices. Without saying anything against Goldin; he was his friend and he had nothing against him but there should be a change. He then in a spread eagle eulogization presented the name of Jesse Earle.

Goldin the Choice.

The ballot for clerk of the court resulted as follows: Goldin, 98; Earle, 61. Goldin having received the majority of votes was declared nominated.

On motion of C. Ingersoll the chair appointed a committee of two from each assembly district to confer and appoint a county committee composed of one member from each ward, town and village.

Miles Rice.

On motion of L. E. Gettle the secretary was instructed to cast the ballot of the convention for Miles Rice as county treasurer.

C. H. Weirick.

C. H. Weirick of Shepler was nominated for register of deeds by acclamation.

Simons from the town of Clinton.

James A. Fathers in a neat speech presented the name of W. A. Jackson. J. C. Rood seconded the nomination of W. A. Jackson.

Jackson Is Nominated.

The result of the ballot was as follows: Jackson, 118; Newhouse, 41. Jackson was declared nominated. J. L. Simons, of Clinton, moved that the nomination of Mr. Jackson be made unanimous.

C. V. Kerch.

I. A. Fathers moved that the secretary cast the ballot of the convention for C. V. Kerch of Janesville for county surveyor.

George Hanthorn.

George Hanthorn, of Janesville, was nominated for county coroner, completing the county ticket.

Clergyman Defends Gambling.

The Austral Light, a Roman Catholic magazine of Australia, recently published an elaborate defense of gambling written by a Jesuit priest under instructions from Cardinal Moran, the head of the church in Australia. The article expressly affirms that gambling in itself is right, even when gain (not entertainment) is the direct aim of the gambler, and that it is wrong only when carried to excess.—New York Tribune.

The Earth and Mars.

Possibilities of communicating with the Planet Mars form a topic which presents a perennial interest for the play of popular imagination. In France, particularly, the people eagerly scan every detail which is offered on this head. An old lady left a large sum of money in trust, in Paris, to be awarded as a prize to the first scientist who should succeed in establishing what the French call interplanetary communication.

Wildcat Darkened Town.

At Fullerton (Wash.), a wildcat attacked the electric plant of the town and left its inhabitants in utter darkness one whole night. The cat climbed a pole, presumably in pursuit of some other creature, and becoming entangled in the electric wires, caused a short circuit. When the animal was found its body was roasted to a crisp.

Will Come of Age in Prison.

Now a mere boy of seventeen years Cleveland Grover will attain his majority in state prison at Portland, Me., where he began last week a term of twelve years for incendiarism.

Neutralizing the Nicotine.

It is announced that "eminent French physicians have discovered a way to entirely neutralize the nicotine in tobacco." Dr. Gautier certifies that he has smoked "thirty large black cigars in twelve hours without any bad effect, whereas in their unsterilized state three make him ill."

President Mitchell in an address on the miner's strike at the Nanticoke convention scored those who have made statements planned to crush the union.

Mayor Harrison of Chicago has asked why the insurance rates on downtown property which were increased when the fire force was reduced are not lowered now that the department is strengthened.

LABORER FALLS HEIR TO IMMENSE FORTUNE

Grandfather Leaves Him \$1,000,000 Under Condition that He Marries a Worthy Woman.

Bowling Green, O., July 10.—Though the heir to an estate valued at \$1,000,000 in Germany, Frederick H. Schmidt is working as a common laborer here. He is the only living heir of Carl Schmidt, who died in Saxewelm, Germany. He has been informed that his grandfather had left him all his property, but the eccentric man put in a proviso that the young man cannot have a cent of the money till he marries a worthy woman. Schmidt says that the woman who becomes his wife must marry him not for wealth, but for love, and that a woman who would not be his wife and care for his home while he is a poor street laborer would not be the kind of a woman he would want when he comes into possession of his wealth.

Convict—No, mum!

Convict—No, mum! I never would have come to see an end as this.

Philanthropist—You would not?

Convict—No, mum. She killed the guy that got her in less'n two weeks after de ceremony.—Judge.

Barber—How's the razor, sir?

Customer—Didn't know I was being shaved.

Barber (flattered)—Very glad, I'm sure, sir.

Customer—I thought I was being sandpapered.—Chicago American.

Native Pride.

"The greatest race across the Atlantic that I ever heard tell of," began the old racing skipper.

"Is the Irish, of course," interrupted Hooligan.—Catholic Standard Times.

Her Position.

Mrs. Parks—What kind of servants do you prefer—white or black, Irish or German?

Mrs. Lane—I've gotten beyond that. I'm looking for servants that prefer me.—Puck.

Priceless.

There's a baby at our house; Came the other night.

He's the cutest little mouse, Eyes so small and bright.

Little fingers, fat and pink, When they spread apart

Seem to reach right out and stick Deep into your heart.

Worth his weight in gold, you say? Goodness bless your soul!

That would scarce express it, He's Worth his weight in gold!
